

ELBEHI Mohammed

FULLSTACK JS Web Developer

PROFIL

"Engineer, entrepreneur, with more than 4 years of experience in the Industrial sector, having made a retraining in FullStack JS Web Developer. Highly motivated and responsible, in order to participate in new challenges, I am sure that my experience will be useful. 'a great use. "

WEB DEVELOPMENT PROJECTS

- ✓ **App Forum:** Using React, Node.js, Express & MongoDB, the MERN Application, is called "Forum", and it's a simple web application that allows users to login to be able to post forums and interesting articles.
- ✓ **Movie App:** A front-end website interface for movies, where the user can search for movies, filter by rating and names and can add a movie to the list.
- ✓ **To-Do List:** A front-end website interface that allows you to create, read, update and delete (CRUD) your to-dos.
- ✓ **Shopping Cart:** Created using Html, Css, JavaScript and DOM, this application allows to add articles, choose the quantity and calculate the final sum to be paid by the consumer.

WEB DEVELOPMENT ASSETS

- Good command of HTML, CSS and JavaScript.
- Diversity of tasks using React JS front-end library.
- Good knowledge of the state management library Redux.
- Good practice with Node js and Express js Frameworks in the back-end.
- Use of NoSQL Databases especially MongoDB.
- Development of a complete MERN web application (Blog: graduation topic).
